Director's Report

1. **Lake Althea Water Quality:** MM reported that he received a call from a resident who was concerned with the excessive level of algae in the lake. MM inspected it and believes it would be prudent to have the water tested for algae, bacteria, oxygen, and the full nutrient series in order to get a better idea of the actual levels. The Commission was in agreement.
2. **Hunter/Norton Property Update:** MM reported that at their July 13, 2015 meeting, the Board of Selectmen stated that they have sole authority of the property and that the proposed activity is “not” passive recreation. Therefore, they voted to temporarily suspend all radio controlled flying activities until final approval by the Board of Selectmen. River Bend Flyers representative Ken Pappas appeared

and was notified by the Commission that this subject will no longer be discussed by the Conservation Commission. Any questions, comments or discussion should be directed to the Board of Selectmen from now on regarding this subject.

3. Sherburne Nature Center/Trails Committee Report: Nothing new to report.
